

CHAUTAUQUA WEEK
AT PHOENICIA

The progressive village of Phenicia is to have Chautauqua Week and plans are now being made to make it a success. Those interested, far and near are invited to join in making it a pleasant and profitable time to all.

The Chautauqua committee reports that they are especially pleased with the strong and appropriate program which has been arranged. In addition to the great feast of music, entertainment and lectures, special efforts have been made by the management to make the Junior Chautauqua bigger and better than ever.

The Chautauqua will be held during the three days, beginning September 3rd and as this is to be reconstruction year for the Chautauqua, the program has been arranged so as to aid in every possible way a wise and just solution of the great problems which are to be met.

Evidence that the management is living up to its usual policy of giving the best or none at all is to be found in the fact that they have secured for the Chautauqua Festival, The Little Playhouse Company. This talented company will present a laughable drama, "Eliza Comes to Stay," and also the beautiful Indian playlet, "The Glory of the Morning."

The Allpress Company will give a varied and delightful program of instrumental solos and duets and of ensemble orchestral music.

Last but not least are Rita Rich and Laura Werno. These charming entertainers will give a program of Irish, English and American songs in costume, and child songs as well.

The Chautauqua management has been doing its utmost to make the lectures as well as the music and the entertainment the best to be found. There will be Robert Smart Miles with his famous lecture "Tallow Dips." More than eighteen hundred audiences have heard Mr. Miles during the past ten years.

The lecturer who will prove of as great interest as any will be Chauncey J. Hawkins, the noted naturalist. He will give an illustrated lecture on his experiences with the wild animal life in the great woods.

The Chautauqua would not be complete without some attention given to the children of the community. The management has made special arrangements with Mrs. Edna Belle Kuhn of New York city to spend the entire last day of the Chautauqua in each community.

Mrs. Kuhn will meet with the children, tell them stories, play games with them and give them a delightful time all around. In the evening Mrs. Kuhn will give a lecture upon the value of organized play for each community.

MILTON.

Milton, Aug. 7.—Carhart Francis of Yonkers is a guest at the home of Mr. and Mrs. W. A. Goehring.

The M. E. fair held last week Friday was a success. The sum of \$230 was cleared.

Miss Bessie Blakeney of Orange, N. J., visited her brother and family at the M. E. parsonage recently.

"The Cedars," known as the Goethe place, south of the village is being negotiated for by out of town parties.

It is reported that Charles Wilkows has sold his place.

Miss Irene Powers and a lady friend of New York city were recent guests of Mrs. Powers at the Presbyterian manse. Mrs. Powers and her son are occupying the manse for the summer.

Mr. and Mrs. Charles R. Taber left for New York city on Tuesday and will be present at the wedding of Mrs. Taber's brother, Edgar, to Miss Berdie Jones at Bayonne, N. J., Wednesday evening.

Patrol Leader Barrett McNicholas, Asst. P. L. David Conn, Arthur Nolan and Thomas Gavin are camping at Bear Mountain with some 50 other boy scouts.

Mrs. M. A. Northrip, Mrs. Ostroff, Miss Ostroff, Ivan Warren and Wm. H. Donaldson, Jr., visited the Boy Scout camp at Bear Mountain recently.

On Sunday morning at 11 o'clock Rev. G. H. Coe of Newburgh, will preach in the M. E. Church. The regular evening services will be held.

reau agent of Ulster county, gave a short talk on preserving and canning without sugar, owing to the shortage of sugar there has been a popular demand for recipes containing sugar substitutes. Dr. Laidlaw, representing the state board of health, was then announced and gave a talk on communicable diseases in a most interesting manner, and illustrated with diagrams regarding transmission of diseases. The latest study of communicable diseases discloses the fact that germs are more easily killed by scrupulous cleanliness and sunlight than by the burning of so-called disinfectants, thinking the smoke or odor will kill the germs.

Arrangements were made for the second lesson of this course to be held on Tuesday, August 19th, at 3 p. m., at the Community House, when Dr. Lynch (our new doctor) will conduct the lesson on first aid to the sick and injured. The next lesson is to be two weeks later and subject will be "Care of the sick room, the bed and the patient," and a demonstration will be given by a trained nurse. The last lesson of the course will be "Invalid Cookery and Diet," in charge of the home bureau agent, Miss L. M. Stuart, and at this time a discussion will be held as to what courses the Milton community would wish to take up so that Miss Stuart may arrange her schedule for the winter work.

Many of our people are planning to attend the farm bureau picnic and field day when they will visit Cowslip Inn, where the home bureau will demonstrate delectable drinks which can be made from milk and these beverages will be for sale, so go prepared to buy and help support the home bureau. This picnic is to be held on Friday, the 15th inst., at Arbutus farm, New Paltz.

Mrs. Edith Fowler of New York city visited her mother, Mrs. James Aldmore last week end.

Miss Gerow of Plattekill has been visiting her sister, Mrs. Enoch Carpenter.

Merlin Collins, who recently returned from overseas, is in St. Francis Hospital, Poughkeepsie, where he submitted to an operation last Saturday. At this writing he is doing well.

Mr. and Mrs. Thomas Sears spent last week end in the Catskills near Grand Gorge.

Rev. H. A. Northacker of Elmhurst, L. I., will preach in the Presbyterian Church on Sunday next at 11 a. m. Mr. Northacker was formerly pastor and his many friends will be glad of this opportunity to hear him again. The Sunday school will convene at 10:15 o'clock.

KINGSTON, N. Y., AUG. 8, 1919.

Whatever one's political affiliations, it is a pleasure to see Tammany rise up and apply the boot to William Randolph Hearst, pro-German advocate as well as party renegade.

With an alcoholic content unmasked in even the pruned—in addition to the same content in a thousand and one other articles of diet—the perplexities of the alcohol-chasers grow apace.

"Capitalism" is the convenient coat upon which the German delegates to the International Trade Union Conference at Amsterdam have elected to put the sin of precipitating the war for which the "imperial" Hohenzollerns and associated Junkers were responsible.

If the price of trolley car rides must go up, the New Jersey plan of zone fares ought to receive wide consideration. From time immemorial London omnibuses have charged so much per mile and it is the only equitable arrangement.

As styles in dress in Abyssinia are said not to change more than once in a thousand years the remark of Prince Nadeo, of the Abyssinian mission, that he would like to see the women of his country dress like American women may be described as revolutionary as well as complimentary.

Longer grows the list of Wilsonian surrenders. At the beginning of his first administration he surrendered to some nation yet unknown on the question of free tolls for American ships through the Panama Canal. He surrendered American markets to the foreign producer, under the Wilson-Underwood tariff law. He yielded to first one faction and then another in Mexico, but never insisting upon the observance and enforcement of treaty agreements regarding the safety of American life and property. He surrendered to the railroad brotherhoods when they threatened to tie up the transportation systems of the country unless they were granted the increased compensation demanded. Following the sinking of the Lusitania he yielded to Germany by declaring this nation "too proud to fight," thus on contracting the Hun to believe that even worse atrocities could be undertaken with impunity. He has offered to surrender the Monroe Doctrine, our constitutional right to say when we shall go to war, our control over imports of merchandise or immigration of foreigners, and our freedom to determine our international policies by the circumstances that may from time to time exist. And now he admits that he surrendered in Japan in the Shantung controversy.

GREAT JURISTS OF THE PAST.

Discussing precedence and the bench in the earlier period of American history, Louis Marshall cites the cases of Story and Kent in support of his view that most of the great jurists of the period developed their powers while still very young, but exceptions such as these hardly serve convincing force to such an argument. Joseph Story of Massachusetts attracted wide attention to his legal writings at 26 and was appointed Associate Justice of the United States Supreme Court in 1811, at the age of 32, an office he held 34 years. James Kent of New York began to read Blackstone at 16, became professor of law at Columbia at 20 and was appointed Justice of the Supreme Court of his State at 35, but his fame rests chiefly on his "Commentaries upon American Law" published between his 43d and 67th years.

John Marshall of Virginia, the greatest of the earlier Chief Justices of the United States Supreme Court, was appointed to that office in 1801 when he was 46 years old, having been admitted to the bar when he was 26. Of course his powers improved and his fame increased during the many years that followed. He died at the advanced age of 80. A very striking example of the activity of a celebrated jurist in advanced years is that of William Rawle of Philadelphia, who retired the end of Pennsylvania after his 70th year and in his 84th year (1855) published his "Treatise on the Constitution of the United States" which treated of the right of a

State's secession from the Union as a matter of course, generally understood and acknowledged at that time, held that any denial of this right would be "inconsistent with the principles on which our political systems are founded," and described the States in the Union which they voluntarily formed as "representative republics."

PORT EWEN.

Port Ewen, Aug. 8.—Private Earl Proper of Company F, 108th Engineers has returned to the home of his parents, Mr. and Mrs. George Proper on South Broadway from overseas with his French bride. He left here, Aug. 1, 1918, for Camp Dix, N. J., and sailed for France September 17, 1918, where he was stationed at Nancy, France, as chauffeur for the duration of the war. On June 28, 1919, Private Proper was married to Miss Pauline Larn of Nancy, France. Mr. Proper has many friends in this village who extend their congratulations to him and his bride with best wishes for a long and happy life.

Word has been received from Rev. Leonard Appeldoorn from Kalamazoo, Michigan, that he will return to Port Ewen in time to officiate at the services in the Reformed Church on Sunday, August 10th. His many friends will be glad to welcome him back.

Peter Sullivan has purchased the property of Edward Carpenter on Broadway and rented his house on Green street to Kingston parties.

Miss Jane Schryver who has been ill at her home on Broadway has resumed her duties at the North River Coal Company's office in Kingston.

Mrs. Kathryn Whalen and daughter have returned to their home in Port Ewen, after witnessing the receiving of the white veil by Kathryn Whalen, daughter of Mrs. Whalen, now Sister Mary Aquina, at St. Mary's Seminary, Scranton, Pa.

SAVING CHILDREN.

Thanks of Liberated Russia Go Out to America.

In a recent message from Lieutenant A. A. Granstedt, an American Army officer who has been assisting in the work of the child feeding bureaus at Pzkow, Russia, to the New York office of the American Relief Administration, European Children's Relief, 115 Broadway, there is told the story of the gratitude felt by the congregations of twenty-eight churches in liberated Russia for the American food which saved the babies of these devastated regions from starvation.

A telegram received by Lieutenant Granstedt from Archbishop Jevgeni and the priests of the diocese which includes Pzkow begged him to convey to the United States government and the officials of the American Relief Administration the thanks of the Russian clergy and people for the work of relief which has been accomplished in Russia, particularly the establishing of the child bureaus. A great number of infants and subnormal young children have already been saved from death by starvation through the food distributed by Mr. Hoover's organization.

Eighty-one thousand four hundred sickly children in Lsthotia are receiving one supplementary meal of American food a day.

CHART OF GREAT USEFULNESS

Record Said to Have Saved
Thousands of Dollars for Big
Telegraph Company.

One of the big telegraph companies not long ago completed a chart that shows all the wires used in the land service of the company. There are about 1,000,000 miles of wires in all. Each wire is represented by a line on the chart, and a number, with figures to indicate the material and the gauge. The chart also shows the route of every cable, whether it is for operation or for testing. Besides that, the map shows the cross connections between the various wires in each office, and even the office assignments of the various circuits.

The chart covers 70 sheets, each three feet by five. If mounted edge to edge it would form one map 27 feet high and 66 feet long. In order to handle the record conveniently, the sheets are mounted in steel frame panels that swing like the leaves of a gigantic book. It is said that this chart is the first single comprehensive record of the material, the size, the position and the purpose of every wire operated by the Western Union Telegraph company. Having such a record has already saved thousands of dol-

lars that might have been spent in construction work had not the chart shown an alternative scheme that was better.

The Parier Bolshevik.
A pacifier Bolshevik at a tea in Greenwich village shilled:
"Our army of occupation is tyrannical and unjust. All the other political parties are permitted to hold meetings and canvass for votes, but the Spartacists are absolutely forbidden to push their cause in any way."

"Quite right," said Novelist Theodore Dreiser.
"Why?" shrieked the pacifier Bolshevik.
"Why is it right to speak the Spartacist movement in this manner?"
"Because," said Novelist Dreiser, "the Spartacists are putting too much reaction in reconstruction."

To Boost U. S. Food Products.
The first agricultural trade commission to work in foreign lands for the interest of American food producers has been named by the United States department of agriculture. It is Edward A. Foley of San Francisco, Cal., who has been appointed to represent the department's bureau of markets in the United Kingdom. Mr. Foley will investigate conditions in the United

Kingdom and study the marketing and distribution of farm products with a view to the development and improvement of foreign trade in American agricultural products.

Economy in India.
Instead of throwing away the hundreds of gauze and cotton "mops" used in the surgical ward of a great army hospital, they are now treated in an apparatus, shown in Popular Mechanics Magazine, in order to recover the iodine in them. Alcohol evaporates and condenses in the cooled upper tube, then falls back through the mops, carrying the iodine down with it in the form of a tincture. The mops are saved, too, by subsequent washing and sterilizing.

No More Insects or Plant Diseases.
Now that plant quarantine No. 37 of the Agricultural department is in effect, prohibiting the importation of plants without a permit, there will be no more garden insects or plant diseases. If there are it will be the fault of the federal horticultural board, for no insects or diseases can enter now except with the permission of the board. Do not discard the squares and insecticides, however, as they will still be useful to combat the old and new troubles that are bound to appear.

KEEP RAILROADS
OUT OF POLITICS
SAYS PLUMB

by Telegraph to The Freeman.

Washington, Aug. 8.—Railroads should not be conducted by any "political autocracy," and must be kept from the hands of politicians, Glenn E. Plumb, counsel for the railroad workers, declared today before the house interstate and foreign commerce committee, urging labor's plan of government ownership and "tripartite" operation of the lines.

Plumb opposed straight government ownership and operation of railroads because of the experience of the government and the people in the recent experiment of government control as a war time measure. "If we leave the railroads in the hands of political appointees," he said, "we will place this great system of transportation, vital in its necessity, in the hands of politicians and that cannot be safely done."

Representative Sweet pointed out that the board of directors of the corporation proposed to run the railroads would consist of five directors representing 20,000 men in the management, five representing 2,000,000 operatives, and five representing 110,000,000 citizens making up the shipping, farming, producing and consuming public, and asked Plumb if he thought this a fair division of authority in control.

Plumb thought so.

"Has the Rockefeller creed been brought to your attention," Sweet asked.

"It reached me, and I think was filed in the waste basket," said Plumb. "Some of Mr. Rockefeller's pronouncements are very excellent, but they take into account only capital and labor and do not consider the interests of the consumer and our organization must protect the consumer. We cannot permit the exploitation of either capital, producer or consumer. This element is lacking from the Rockefeller sub-base-ment of foundation."

COLOMBIA MUST
ASSURE SAFETY

by Telegraph to The Freeman.

Washington, Aug. 8.—Until the Colombian government has furnished assurances that American oil and other interests in Colombia are to be fully protected, and are not to be "subjected to the hazards which have ruined or jeopardized American property in Mexico," the Colombian treaty providing for the payment to Colombia of \$5,000,000 in connection with the acquisition of the Panama Canal zone, will be held in abeyance by the senate. Senator Lodge, chairman of the senate foreign relations committee, announced this afternoon.

FIRST ARRESTS IN
PROFITEER DRIVE

by Telegraph to The Freeman.

Grand Rapids, Mich., Aug. 8.—The first arrests in the federal drive against food profiteers and law violators were made here today. Seven men were taken into custody by federal authorities. Most of those arrested are charged with misbranding goods and incorrect weights in the sale of food stuffs. They were arraigned and released on \$200 bond and were ordered to report in district court September 2 for trial.

Charges Labor Law Violation.

Lewis Brown, president and treasurer of the Brown Auto Supply Company, Inc., of this city, was summoned to city court this morning on complaint of John Frier, agent of the department of labor. The corporation was charged with violating chapter 31 of the consolidated laws, in permitting Edwin Blanshan, a clerk, to work in its store on Sunday, Jan. 5, without first posting a notice giving the schedule of Blanshan's working days and hours. Attorney John T. Loughran, attorney for the Brown corporation, entered a plea of not guilty on behalf of his client. The date for the hearing was fixed for September 13. Frier was represented by a Mr. Cunningham of New York city.

LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

William B. Moseley died at Ellenville Thursday. The funeral will be held Saturday afternoon at 2:30 o'clock.

Clarence York died at his home on Jane street, Saugerties, on Thursday morning, aged 35 years. Deceased suffered from a growth on the brain and had been ill several weeks. He is survived by a wife one daughter and parents, Mr. and Mrs. Lewis York of High Woods, a sister and two brothers. The funeral will be held in the Mt. Marion Reformed Church, Saturday afternoon at 3 o'clock. Interment will be in Mt. Marion cemetery.

John W. Cassell died Thursday evening at his home on the Flatbush road, about one mile below the village of Glasco. Mr. Cassell was taken ill about a week ago with erysipelas in the head and face, accompanied with excessive blood pressure. He was a well known merchant and had a wide circle of friends and acquaintances, being highly esteemed by all. For a number of years Mr. Cassell had been a member of the firm of Fuller & Cassell at Glasco, but during later years conducted a store of his own at his residence in Flatbush. He was about 62 years of age and leaves a wife and daughters, the youngest, Miss Mabel Cassell, residing at home, the others being married. The funeral arrangements will be announced later.

Joseph Hall died on Sunday at his home near Walden, and funeral services were held there Wednesday forenoon, his remains being taken to Stone Ridge for interment beside those of his wife, who died some fifteen or sixteen years ago. Burial was with Masonic honors, a delegation from Wawarsing Lodge, F. & A. M., of which he had been a member since 1868, attending. Deceased was a son of George W. Hall and his wife, Maria Misner, and was born at Neversink Plains in March, 1841. At the age of 16 or 17 the family moved to Grahamsville. After about five years Joseph went to Napanoch, where he followed his trade, that of a millwright, with Demmon S. Reynolds. While in Napanoch Mr. Hall was married to Miss Anna Eliza Phillips of Honk Hill. About 1877 or '78 they moved to Ellenville. Then Mr. Hall bought a farm at Greenfield, but after two or three years traded it with H. N. Scoresby for the property on upper Center street now occupied by Peter Taylor and family, later exchanging that for the Thomas Appleyard property on the Cape road, where he was in the flagging business for several years. Later Mr. Hall had farms between Krippelbush and Stone Ridge and at Rosendale. From the latter place he went to Gardiner, where he purchased the Thomas Barlow farm, and a year ago last spring he bought the farm property near Walden, where he died. Mr. Hall had not been in good health for the past two years, and about three weeks ago was taken with his last sickness. He leaves a son, George, and a daughter, Bertha, at home. L. F. Hall of Ellenville is a brother and Mrs. Burgoyne Knight of Grahamsville is a sister.

Zachariah Vanderlyn of Ellenville died at the Benedictine Sanitarium Wednesday morning, where he had been for some eight weeks for treatment. He was born on the old Vanderlyn farm near the Shawangunk Church, May 25, 1827, and spent his boyhood there. When about 15 years old he came with his widowed mother, whose maiden name was Decker, to Ellenville, and shortly afterward they went to Briggs Street, where on February 14, 1849, Zachariah married Sara, daughter of John E. Freer. For some fifty years or more they made their home in that locality, until, following the death of Mrs. Vanderlyn in October, 1900, Mr. Vanderlyn sold his farm and since then made his home with his children, a large portion of the time with his daughter, Mrs. Bunting, in Ellenville. Mr. Vanderlyn was a great reader of the Bible, and familiar with its contents; a member of the Reformed Church of Ellenville. In the absence of his pastor, Rev. W. S. Maines, the Rev. Mr. Schleiermacher of Wartboro conducted the funeral services, which were held at 2 p. m. Friday, from the Bunting home on Maple avenue. Burial at Greenfield. Mr. Vanderlyn's death was from a cancer on the face which developed some two years ago; an operation was performed, but it returned, with fatal effect. Outside of this his health throughout his long life had been remarkably good and he retained his faculties until the end. He leaves one brother, Edmund Vanderlyn, of Neversink, who was 90 years of age in July, and a sister, Mrs. Roswell Cole, died about three years ago at the age of 91. Of eleven children born to him six survive: Amanda, wife of Thomas Shaw of Newburgh; DuBois of Ellenville; John E. and William S. of Ellenville; George M. of Chelsea, N. Y.; and Helen T., wife of C. R. Bunting of Ellenville.

Tennis Tourney Results.

Two matches in the tennis tourney were played this morning at Forsyth Park. In the first J. O'Neil defeated A. Raynor in two straight sets 6-2, 6-0. In the second game Edmund Mahar defeated R. Scherrenka two sets out of three. The scores were: 6-1, 3-5, 6-2.

SHOPMEN'S STRIKE
PARALYZING R.R.'S
IN MIDDLE WEST

By Telegraph to The Freeman.

Chicago, Aug. 8.—As a result of the strike of railroad shopmen, which has piled railroad yards with engines and cars in need of repairs, seventeen trains on the Chicago and Northwestern Railroad, fourteen cars, were cut from the railroad's schedule today and indications today were that trains were to be cut by other roads entering Chicago within the next twenty-four hours. That the strike has had serious effect was proven by the cutting off of trains by the Northwestern road, all of which are through trains running from Chicago to points in Ohio, Illinois and Wisconsin.

The effects of the strike are being felt here by various roads to such an extent that officials are considering placing in force an embargo on freight.

Orders have been issued by the railroads' union for the men to return to work immediately pending President Wilson's action on the wage adjustment, which caused the walkout of thousands of railroad shopmen.

Although refrigerator service, freight, grain and livestock have been thus far unhampered, Regional Director Ashton is not concealing his concern over the food problem, as he fears a food shortage will result. Officials of the Chicago stock yards say the temporary embargo on live stock practically shuts off all live stock shipments from Iowa.

Dispatches from St. Louis tell of embargoes placed on east bound freight, while Chesapeake and Ohio passenger cars out of Cincinnati have been cut off. Reports here today show that the strike is still spreading, shopmen in Seattle, Tacoma and Portland joining the strikers.

OUR DAILY PATTERN.

2625—A Serviceable Coat Style.

Novelty cloaking in blue plaid, was used in this instance, with gray silk jersey cloth for collar and cuff facings. Velvet, corduroy, plush and other pile fabrics, also velvet, cheviot, tweed and serge are good for this design. The collar is a good feature. It may be rolled high for cold weather style, or arranged in low outline as illustrated.

The pattern is cut in 5 sizes: 4, 6, 8, 10 and 12 years. Size 10 requires 3 1/2 yards of 44-inch material. A pattern of this illustration mailed to any address on receipt of 19 cents in silver or stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state size wanted.

Catalogue Notice.

Send 10c in silver or stamps for our UP-TO-DATE FALL AND WINTER 1919-1920 CATALOGUE, containing 550 designs of Ladies' Misses' and Children's PATTERNS, a CONCISE AND COMPREHENSIVE ARTICLE ON DRESSMAKING, ALSO SOME POINTS FOR THE NEEDLE. (Illustrating 30 of the various, simple stitches) all valuable hints to the home dress-maker.

1920 Auto License Plates Ordered. The contract for the new 1920 automobile license plates has already been let by Secretary of State Huxar. The new plates for next year will be of green and black, the background being a pea green with black numerals. The contract calls for 600,000 sets of plates with deliveries to begin early in the fall in order that the delay experienced this year in sending out plates to car owners will not be repeated.

Life Made Beautiful.

"The part of life which we really live is short," said Seneca. "Enjoy your rest." Perhaps it is true, as this wise old pagan has said. And yet it ought not to be true. All of life should and can be made beautiful. The fact that it is in us should not assert itself infrequently, but at all times. The time we spend in the effort to satisfy our greed, the time spent in envy of our neighbors, in anger, is any unworthy spirit whatever, is assuredly time spent ill. It is that part of life in which we really do not live at all.—Los Angeles Times.

Consequences.

Consequences are unpleasant. Our deeds carry their terrible consequences, quite apart from any fastenings that are hardly ever confined to ourselves. And it is best for us to do our minds on that certainty, instead of thinking what may be the elements of excuse for us. Sooner or later what we really believe will work its way into action, and what we think and what we do will one day be in accord. That is one great danger of uncontrolled thought.

Only Thing He Could Do.

Mother wanted to go to the store, so she told Jack to take care of Ramona, the cat, and send her out of his sight. When mother returned, she found Ramona tied to the fence with a rope around her neck. Mother asked Jack why he did this and he said: "Well, mother, that is the only way I could keep Ramona in my sight."

Plants That Feed on Animals.

That such plants as "Venus flytrap" actually catch and squeeze to death flies and other insects alighting on their leaves has long been known, but the discovery is comparatively recent that the plants digest the softer parts of their prey by means of people ferment secreted by the leaves. These are real instances of plants feeding upon animals.

"DIRECT" BITE TEETH

After years of experimenting our laboratories have discovered a direct bite set of artificial teeth. These plates improve the sense of taste and insure perfect enunciation and articulation. The teeth absolutely cannot be discerned from natural teeth. These teeth because of the direct bite have three times the biting strength of ordinary plates. Are you now wearing artificial teeth? If so, we strongly advise you to call and investigate this new plate.

WAR DERANGED 1,000 FROM STATE

By Telegram to The Freeman.
Albany, N. Y., Aug. 8.—There are now 350 insane soldiers in the various New York state hospitals. Practically all suffered mental breakdowns while in the service in France. Attorney General Newton today disclosed this fact in announcing that he is preparing applications to the supreme court for the appointment of committees to look after the property and money of the soldier insane. It is estimated, according to Mr. Newton, that at least 1,000 New York state soldiers will have been admitted to the insane asylums by the time demobilization is completed.

AT THE THEATERS.

The Third Degree Pleased Audience at Keeney's.

Alice Joyce in "The Third Degree" drew a large audience at Keeney's last night and hundreds were enthusiastic in their praise of this delightful star and her excellent portrayal of this great drama. This photoplay will be repeated again tonight at Keeney's with the same exceptional musical program.

"The sweetest girl in motion pictures" has scored another decisive hit in her new play "Let's Elope," which will be presented at Keeney's Saturday.

Hazel Daly, supported by Matt Moore and Sydney Almsworth will be seen at the Auditorium tonight in "A Wild Goose Chase," a picture dedicated "To the Men Long Missing in the Arctic Circle."

The million dollar comedian will be presented at Keeney's next Monday, Tuesday and Wednesday in his latest comedy, "Sunnyside."

The Country Life For Them.

Miss Gertrude Barnes and Miss Maude Dudley, both of Elmendorf street, are spending the summer vacation as the guests of Miss Vera Van Steenburgh of No. 127 Elmendorf street, at her summer home in Shokan. The girls are spending the summer on the trail of the blackberry and the buckberry and are enjoying a fine time of it. Before they return they expect to learn more of the secrets of running a successful farm. "The country is the life for them," they say.

Keep Sweet.

Yawning the trigger takes all the sweet, pure feeling out of life. One may get up in the morning with a clean heart, full of love, and start out as happy as a bird, and the moment he is crossed and gives way to temper the clean feeling vanishes and a bad as dress as lead is rolled upon the heart. Be the master of your temper and you hold the key to joy and contentment.

BIG SHOE SALE

Strikes a New Blow at the High Cost of Living!

\$20,000 Worth of High Grade Shoes at Prices from 10 to 40 Per Cent Under the Market

The question for thoughtful people to consider right now is not what do things cost TODAY, but what will they cost in the next few months to come. Every head of a home, every man and woman who has to look the family budget in the eye, should awake to the advantages of buying now for future needs, for we will make prices that will defy the market and may not be duplicated in months or perhaps years.

The question naturally arises, if our stock is growing in leaps and bounds, why not hold them for the future, since shoes are so scarce and present retail prices so comparatively low?

The answer is, OUR SHOE STOCK is so large that we could hardly have room to place any more, due to the placing of orders far ahead at old prices, and new shoes are arriving daily from sources few stores can reach.

JOHN J. LARKIN, 18 BROADWAY, DOWNTOWN

ACCORDING TO ORDERS.

A man was watering the grass around a public building.

The grass was already drenched with rain, with more rain coming down, but the man with the hose paid no attention. He was watering the grass.

Government clerks coming along chuckled and gurgled under their umbrellas, but the man who was on the job paid no attention. He was watering the grass.

A passing man was curious enough to pause and ask why the grass should be watered on a rainy day. He got his information.

"The boss said to me the last thing before he left town yesterday that the grass was looking fine and as he wanted to keep it in good condition I better water it a bit this morning. And I'm doing it according to orders."

Which seems to show that Casabianca wasn't the only member of his class.—Philadelphia Ledger.

DRAWING THE LINE.

The movie star and her new husband were having their first quarrel.

"I would have you to understand, sir," she said, "that you are only my husband."

"Well?"

JEWELL FORESEES SHOPMEN'S RETURN

Strikes Not Authorized—Big Four Brotherhoods Not Thinking of Strike.
 By Telegram to The Freeman.
 Washington, Aug. 8.—Confidence that the striking railway shopmen would return to work, in accordance with President Wilson's ultimatum, was expressed today by Bert M. Jewell, acting president of the railway department of the American Federation of Labor, with which the strikers are affiliated.
 Jewell has conferred with all the officers of the affiliation acquainting them with President Wilson's assurance that the question of wages would be taken up and "considered on its merits," but only on the condition that the men return promptly to work.
 "The strike was never authorized in the beginning," and we had urged the men to return," Jewell said today. "However, now that the president has spoken I have little doubt that they will go back."

J. J. Forrester, president of the Brotherhood of Railway Clerks, Freight Handlers, Station, Express and Steamship Employees, which is now taking a strike vote returnable September 8, indicated today that the ballot would be proceeded with, unless future developments warranted its withdrawal. But at the same time he made it plain that no strike before the return of the ballot would be tolerated.
 The heads of the big four brotherhoods have insisted that they have contemplated no strike. Warren S. Stone, head of the locomotive engineers, emphasized this before the house interstate and foreign commerce committee, conducting hearings on the Plumb plan for government ownership and "tripartite" operation of the railways, and A. B. Garretson, for years president of the Order of Railway Conductors, made the same assertion in an interview today.

Garretson is recognized as a power among the four great railway labor brotherhoods, and is credited with forcing through Congress, in conjunction with the other brotherhoods, the Adamson eight hour day law two years ago. Mr. Garretson is now retired, and the Order of Railway Conductors is headed by L. E. Sheppard. At the request of the brotherhoods, Garretson came to Washington, however, to testify before the house committee on the Plumb plan.
 "I have not even heard a suggestion among railway workers for a strike should congress refuse to grant government ownership," he said today.
 With all the "defects" of government operation of the railroads during the war, the 2,000,000 employees represented by the railway unions are "absolutely convinced" that the railroads should be run at cost to the public through the government, and not be returned to the old controlling interests, which are waiting again to mislead the people, he added.

"The Sick Man of Europe."
 A collector of old prints proved that the expression, "The sick man of Europe," persistently applied for years to Turkey, dates back to the seventeenth century, when John Sobieski drove back the Turks from the gates of Vienna. A print of the period shows the Turk on his sick bed and doctors, representing the nations of Europe, gathered about him.

Enjoyment Spoiled.
 A little girl's mother had just bought her a bright red coat which she had never worn. There being a death in the family her mother dressed her and decided it not best to wear such a bright coat, so put on an old black one. As the child noticed this she began to cry and said, "If I can't wear my new red coat I sure won't have a good time at the funeral."

FREIGHT EMBARGO ON NEW HAVEN

By Telegram to The Freeman.
 New York, Aug. 8.—The New York, New Haven and Hartford Railway today put an embargo on freight to facilitate the handling of foodstuffs and other necessities.
 The following statement was given out at the offices of the railway:
 "The order for an embargo was put out in order to control the movement of freight, so that arrangements may be made which are being done now, to give preference to the handling of foodstuffs and the shipments of necessities.
 "On account of labor troubles on the New Haven and Central New England railways all freight is embargoed."

FINANCIAL AND COMMERCIAL

By Telegram to The Freeman.
 New York, Aug. 8.—There was a complete reversal of stock movements and speculative sentiment at the opening of the stock market today. The issues which had shown such pronounced weakness in yesterday's trading showed an urgent demand and during the first 15 minutes, gains ranging from one to over 6 points were recorded. United States Steel Common was heavily bought and started with an advance of 2 1/2 points at 102 1/2 and after a reaction to 102 1/2 moved up again to its opening price, Baldwin Locomotive, Bethlehem Steel B and Crucible Steel made gains of about 3 points and other industrials moved in the same way. The extreme advance was made in United States Rubber which responded to the news of a capital readjustment with an advance of 1 1/2 points to 128 1/2. General Leather rose 2 1/2 to 88 1/2. Marine Common 2 points to 57 1/2. Studebaker 2 1/2 to 104 1/2. Declines were recorded in some stocks but they were chiefly in issues which had not been traded in yesterday afternoon and were influenced this morning by the appearance of a few belated selling orders.

The market developed an irregular tone which turned into weakness in the late forenoon, although a few specialties were active and strong. Steel Common, after selling at 102 1/2, dropped to 101 and Baldwin Locomotive fell 2 1/2 to 103. U. S. Rubber was in supply after its advance of over 6 points to 128 1/2 and fell to 127 1/2. American Car and Foundry was a strong exception, moving up 1/2 to 117.

The market developed a strong tone during the mid-afternoon when vigorous recoveries were made from the low levels. Steel Common rallied 2 1/2 to 102 1/2 and Baldwin Locomotive 1 1/2 to 104. Atlantic Gulf rose from 142 1/2 to 150. Gains of from 2 to 3 points were made in nearly all the other active issues. American Car and Foundry advanced nearly 7 points to 119 1/2.

The market closed strong, government bonds unchanged, railway and other bonds steady.

Razors of Glass.
 The method adopted in the manufacture of glass razors was quite interesting. A cylindrical piece of volcanic glass, seven or eight inches long, from which thin flakes (some what resembling modern razor blades in shape) were skillfully clipped off. This was often accomplished in such a way that the resulting blade had two beveled edges, very keen and sharp, for its entire length. Such a razor blade had cutting edges that kept their sharpness quite as long, it is likely, as the steel tool of today. And when it became dull there was no necessity for sharpening it. All that had to be done was to knock off a fresh flake (lengthwise of the edge), which was already as good as honed and stropped. The glass cylinder served the same purpose as one of the new-fangled shaving sets, in which a supply of extra blades is furnished, in order that the man who shaves may escape the trouble of stropping and honing.

First United States Bank.
 The first bank in New York city, in point of age, is the Bank of New York, in Wall street, which was organized 155 years ago. A number of prominent merchants and citizens met at the Merchants' coffee house and elected officers of the financial institution. Alexander Hamilton was the real founder of the Bank of New York, but Gen. Alexander McDougall was chosen as its first president. Hamilton drew up the constitution of the bank which had its first headquarters in the Walton mansion. Both Hamilton and Aaron Burr were stockholders, and the former was a director for five years. For many years after its organization the Bank of New York, with the Bank of North America in Philadelphia and the Bank of Massachusetts in Boston, held the entire banking capital of the United States. The bank of New York has occupied its present site since 1798.

Law and Literature.
 In the history of literature there are many names of writers who, at one time or another, were connected with the legal profession. Among the men of letters who have graduated as attorneys are Lewis Theobald, the famous dramatist of Shakespeare; Sir John Hawkins, the biographer of Jonathan Swift; James Smith, the author of "Rejected Addresses"; Shirley Cornwell, poet and dramatist; Shirley Brooks, novelist and editor of Punch; and Sir Theodore Martin. Many other names are to be found among authors who have worked in different offices without being admitted, these including Washington, Chesterton, George Bernard Shaw, Dickens and Meredith.

5,000 STOCKYARDS
WORKERS STRIKE

By Telegram to The Freeman.

Chicago, Aug. 8.—Upwards of 5,000 stock yards workers, including 800 city employees, left their work at the stock yards today announcing that they would not return "until the guard of police, soldiers and special deputies," which has been assigned to the yards, since the race riots, is withdrawn.

The strikers are affiliated with forty labor unions, and union leaders say the strike will become general and the yards will be "completely tied up by Saturday morning unless the guard is removed immediately."

The guard was thrown about the stock yards early Monday when negro employees who had been "unable to reach the yards since the start of the riots, returned to work. Union officials said there was no need for the guard, that the race feeling has subsided and that negro workers wearing the union button need have no fear. They say that stockyard officials have taken advantage of the situation and have employed hundreds of non-union negroes to work "under police and military protection."

STOCK MARKET
FLUCTUATES

Much Excitement as Prices Break Around Noon—Railway Shares Sold at New Low Records—Recovery Later.

By Telegram to The Freeman.

New York, Aug. 8.—Prices on the stock market broke violently at noon today, but the movement was followed by a recovery.

Many issues fell below the level established on Thursday.

United States Steel Common fell to 10 1/4, but later was carried upward to 10 1/2 on a rebuying wave.

Baldwin Locomotive yielded five points, going to 9 3/4.

There were losses from 3 to 7 points in most of the stocks in which there was any active trading.

Large blocks of railway stocks were thrown on the market. Union Pacific slumped 5 points to 119 1/4. Reading sold down 3 points to 75. This was the lowest these standard railway shares had sold in a long time.

The trading was accompanied by exciting scenes on the floor of the exchange.

EPIDEMIC MORE SERIOUS.

If One Should Come While Living Costs are High.

By Telegram to The Freeman.

Washington, Aug. 8.—A warning that the high cost of living might be responsible for many deaths in the event of another disease epidemic was received by Secretary of Commerce Redfield this afternoon.

Louis I. Harris, director of the bureau of preventable diseases of the New York department of health, in a letter to the secretary, stated that "many who are suffering from the effects of the high costs of living will have their power of resistance to various diseases greatly weakened" and that this would be a "cause of serious apprehension in the event of a recurrence of the epidemic of influenza and pneumonia."

Lieut. Martin Netter, designated as Democratic nominee for Alderman-at-large, has filed his declaration with the board of election commissioners.

The Art of Dressing

The art of home-making is very different from the art of dressmaking. Many women have beautiful clothes and hideous homes. Other dress like frumps and leave one spellbound at the gracefulness of their houses. Dressing one's self is a far lesser art than dressing one's home. Dressing one's self is a wholly egotistic amusement, while creating a beautiful atmosphere where others may rest and be happy, shows a developed social consciousness and a brotherhood with the whole world.

The Laboring Streamlet.

The seventh graders were studying Paul Haynes' "The River" and the teacher wished them to compare its course with that of life. So she asked several questions, among them: "To what age in life does the 'laboring streamlet' correspond?" And this was Henry's answer: "The laboring streamlet rushes and roars and is full of waterfalls. It corresponds to the age from eighteen to thirty, because then we are having all our troubles—rushing along and getting married and having children."

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

ARMY MEN AS SCOUTMASTERS

"Don't take off the khaki, just change the buttons," is a slogan that will appeal to returned and retired officers of the United States Army.

Maj. Gen. C. M. Clement of Sunbury, Pa., is at the present time the first army officer to accept this new scout slogan for himself.

General Clement has recently returned from active service on the western battle front.

The acceptance of a position as scoutmaster by General Clement has

Maj. Gen. C. M. Clement.

made it difficult for other men to refuse a like call on the ground of multiplicity of duties.

There are at present over 452,000 boy scouts with their leaders. Applications are coming in to national headquarters at the rate of about 1,000 a day. The government wants the scouts to grow, and there would be several million of these organized boys in khaki if there were the men to lead the troops.

Returning army men can find in this a great opportunity. The scout uniform, in fact, is much like the army uniform and is authorized under Section 125 of the army reorganization law.

SCOUTS' LIFE FOR ALLIES.

In the death of Denwood W. Newbury, age seventeen years, in a lumber camp on Mount Spokane there passed a boy who, disappointed that he was too young to enter the army, had done all he could to aid the causes of the allies to prove he was not a slacker, and who had striven to live up to the principles he had learned as a boy scout.

He was intensely interested in the war, and had contributed from his earnings to the French war orphan fund, the Armenian relief, and had invested in War stamps and bought a Liberty bond. At the camp he collected \$54 from the men for the Red Cross. He had been a member of the boy scouts in California, where we lived before going to Spokane two years ago, and his efforts were along the line of making a good record for the scout service.

SCOUTS A NATIONAL FACTOR.

"War has certainly brought to the boy scout movement great opportunities," says Milton A. McRae of San Diego, Cal. "We have had some loss, but I believe a much greater gain, and the publicity that the movement is receiving in America is a wonderful asset, and really beyond comprehension."

"I marched for two and a half miles in a great parade at the head of the San Diego council and the boy scouts, and I am certain that I did not misinterpret the cheers and plaudits of the thousands of spectators who lined the streets while the procession passed by. The boy scout movement is a factor in this nation."

SCOUTS FURNISH COOKS.

A company of 148 drafted men were quartered in the Orange, N. J., high school to receive instructions as machinists. Only one cook was provided.

The scout organization discovered the situation and maintained a force of six scout cooks day and night to help in feeding the company.

THE BOY SCOUTS' SALUTE.

During the playing of the national anthem, the passing of the colors, or at sunrise or sunset colors, a scout in uniform stands at attention and salutes. It is a definite salute, whether it be or not, he simply removes his hat. This is not hard to bear in mind and should be strictly observed.

Notice two approaching up-to-the-minute scouts, totally unknown to each other. At six paces their hands snap up and the scout smile or cheerful "Hello" results.

The Poor Little Newsboy.

They were dining down street the other evening and their attention was called to a poor little newsboy sitting near and eating a solitary plate of beans. The girl in waiting told them that it was the fourth time that day that he had been in for a nickel order, and that he always took beans, and she thought the little fellow was hungry. So they called him over and gave him a half-dollar to spend and told him to buy a good dinner—anything he desired. While he was gone their own dinner cooled as they speculated as to what he would buy. Of course, it would be pie and cake and crullers and the sweets so dear to the young. Presently he returned triumphantly bearing several dishes—all beans. That child knew what he wanted and when he wanted it—la-diapolis News.

Character and Credit.

The world needs character to use its capital. There are many men on this old globe with money in the bank. There it does little to help men. Money is of value only as it circulates and produces increase. Credit is the medium through which money works. Character is the greatest asset in securing credit. That starts the money in circulation and turns the wheels of

The Painter.

There is nothing more satisfying than the friendliness and hospitality of a great painter. It is like one of those grand North American Indians who of old used to spend years accumulating wealth only that he might give a gigantic feast to which he could invite everyone, friend and foe, stranger and tribesman.

If you did not enjoy the feast, that was not his fault but yours; if you did, you added to his pleasure, and you helped him to the impetus that would presently send him forth again to gather anew for his next feast. A painter does not ask who you are or what you are, but he asks for your sympathy and appreciation. There is something aloof about him, and yet he waits for you and invites you.—W. A. Sinclair.

MISS ZIMMERMAN
ADMITS SHOOTING

By Telegraph to The Freeman.

Springfield, Mass., Aug. 8.—Declaring she shot Dr. Henry Zimmerman because he ruined her and then refused to marry her, Miss Jennie Zimmerman, 25, prominent Red Cross worker, made a complete confession of the shooting and the events leading up to it, the police announced today.

The shooting occurred in the presence of the physician's fiancée and another young woman who were in an automobile with him. Miss Zimmerman, who is not related to the doctor, though they bear the same name, said they had been engaged for two years but that shortly after his return from a camp in Virginia, where he was a lieutenant in the medical corps, he became cold toward her. She refused to meet her when she phoned him earlier in the day, she said, and swore at her and told her to "go as far as you like" when she begged him to marry her.

Pop Goes the Weasel.

While Edward Elmendorf, steward of the Kingston Club, with his daughter, was standing near the county clerk's office about 9:30 this morning, also another man, they were surprised to see ambling across Main street and then Fair street a good sized vessel. It went between the Eagle Hotel and the county clerk's office to the rear of the Eagle Hotel.

Rhinebeck Hospital Demands Funds

The Rhinebeck village authorities have taken a hand in the affairs of the Thompson Memorial Hospital, and have begun an action to restrain the trustees of the Thompson fund with which the hospital is endowed, from using the fund for other purposes. The hospital received only \$14,000 last year.

MARDI GRAS
OPENS MONDAY

The grand opening of the Mardi Gras at Kingston Point will be on Monday evening and Mayor Canfield will officiate. Tuesday evening the 15th is masquerade night and a gala night it will be. The committee has arranged with the Voegelin Costume Company of New York city to have a representative at the Casino in the Park on that afternoon and evening with a full line of costumes and the same can be rented for a nominal cost.

Curt Shurter has also arranged for a masquerade dance on that evening, and also dancing exhibitions by talented dancers from New York city.

Thursday evening is the row boat race from the light house to the row boat float in the park. Two men are allowed in each boat. Boats can be secured at the park or contestants can use their own boat.

A relay race is offered for Friday evening and young men representing schools, stores, or industrial plants are asked to make up their teams and compete.

Saturday night is Labor's Night. Local No. 251, House Carpenters will compete in a row boat race against the Boat Carpenters Local, No. 793. A tug-of-war is being arranged between the Plumbers' Local and the Maintenance of Way, Local of Railroad workers.

Sunday night is the watermelon contest and the colored folks will have their good time.

Monday evening is the crowning of the King and Queen of the Mardi Gras at 10 o'clock, the contest closing at 11:30 of that night.

Tuesday evening is the canoe race. Two men are allowed in each canoe and the race will follow the same course at the row boat races. The grand close will be on Wednesday night and it will also be Firemen's night.

Each afternoon and evening, except Sunday, a free attraction direct from some New York house or a summer resort will be given. Picard Brothers will be the attraction each afternoon and evening of the first three days. They give a novelty comedy triple bar act and are one of the best in the profession.

The Helena Trio in their aerial and stage acts will be on hand the following three nights and come as well recommended as Picard Brothers. Last is Allene with his high wire act.

Each afternoon and evening Sharer's orchestra will furnish music for dancing in the Casino. Monday, Tuesday and Wednesday of each week Mr. Sharer has arranged for professional dancers.

Taken To Hospital.

William Rosomer was taken ill at the corner of Wall and North Front streets, Friday afternoon at 5:40 o'clock. The city ambulance was summoned, and he was taken to the Kingston City Hospital by Officers Kuchin and Foul.

SECOND DIVISION
PARADES TODAY

By Telegraph to The Freeman.
New York, Aug. 8.—New York today paid homage to the second division of the American army, the heroic unit which stopped the Germans on the road to Paris in the great drive of 1918.

Led by Major General Lejeune, of the United States marine corps, the second division, 25,000 strong, will parade through the city late this afternoon and a record greeting was promised.

Despite hot, humid atmosphere, people began gathering along the line of march before the time for the procession to start.

Fifth avenue was ablaze with flags in honor of the occasion.

To Invade Poughkeepsie.

The Women's Land Army will invade Poughkeepsie on Saturday seeking funds.
